

2025 High School Summer Program

Dear Parents,

Prepare for college and beyond with our comprehensive courses designed to elevate your academic performance. Our **College Writing Skills** helps you excel in reading, speaking, writing, and listening, with real test strategies, note-taking techniques, and hands-on practice. You'll get to enhance your writing skills, including crafting impactful college essays. For SAT prep, our **SAT Verbal & Grammar Excellence Class** focuses on understanding question types and tackling grammatical challenges, ensuring you're well-prepared for the test with insightful analyses and strategies to boost your score.

Lastly, dive into the world of **Organic Chemistry**, a foundational course essential for students pursuing AP Chemistry, pre-med, biosciences, and other STEM fields. Learn the structure, bonding, and real-world applications of organic molecules, reinforced with hands-on lab experiments.

Join us to build the skills you need for academic success and a bright future!

July		June 30 ~July 25		20 Days			
		Class Description					
09:00-12:00 College Writing Skill <small>Ms. Sherry Wen</small> 3 Hours		Elevate your performance with our mastery course, focusing on reading, speaking, writing, and listening skills. Improve by analyzing mistakes and enhancing your writing, including crafting compelling College Essays. Our comprehensive approach prepares you for college success. Transform your potential into achievement. Join us and make your academic dreams a reality.					
13:00-16:00 SAT <small>Mr. Sherry Wen</small> 3 Hours		Elevate your SAT scores with our specialized class, focusing on verbal and grammar excellence. Using College board tests, we explore question types and grammatical challenges, providing deep insights into common mistakes. Our sessions include detailed analyses to enhance understanding and confidence. This approach guarantees a strong grasp of the exam, propelling students to success. Join us to transform your SAT performance.					
July		0.5 Credit Course		June 30 ~July 25		20 Days	
		Class Description					
13:00-16:00 Organic Chemistry <small>Mr. Fredi Cheruvathoor</small> 3 Hours		Kickstart Your Future with Organic Chemistry This Summer! Organic chemistry is essential for students pursuing AP Chemistry, pre-med, biotechnology, forensic science, chemical engineering, and other STEM fields . This summer credit course provides a strong foundation in molecular structures, bonding, reaction mechanisms, and real-world applications in medicine, materials science, and environmental studies . Engage in problem-solving, discussions, and interactive explorations to deepen your understanding. After school reopens, hands-on lab experiments will reinforce key concepts. This elective goes beyond textbooks , preparing high school students for college and future careers in science and innovation . Don't miss this critical opportunity to get ahead!
